

GRAND BUFFET

2014 - Massimo Castagna

Description

Particularly high sideboard of contemporary design, characterised by the unusual horizontal partition of the doors, but with height and proportions of a traditional buffet. Large volume and great capacity, closed by two asymmetric doors, with finely tapered edges. The upper compartment adopts an evolution of the innovative Dual-Flap® opening system (designed by Lodovico Acerbis, Acerbis patent). In just one simple gesture the front panel tilts down, while part of the top rises to reveal the full contents of the unit, backlit by a LED illuminated rear panel. The upper door, once open, offers a bearing surface at an especially convenient height for serving. The lower compartment with drop down door and glass shelves, grants exceptional storage capacity.
