Moodboard Console

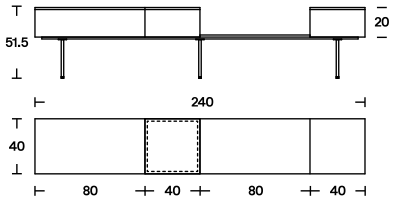

Year	2018
Designer	Massimo Mariani

The skilful experiments with textures and shades of Massimo Mariani's Moodboard Console gracefully mixes wood, brass, and marble to create a playful yet elegant multi-material surface.
The low sideboard can be personalized with a combination of top materials, and a polished steel or brass tray can be added as a valet or utility tray, which also functions as an integral part of the design and structure when not in use.
