

# N.C. SMARTWALL

2012 - Massimo Castagna

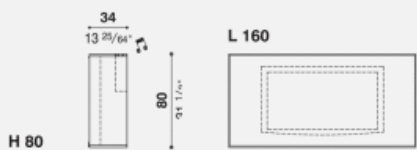

## Description

Wall-mounted unit with simple, free modularity. Combining elements of the same depth, whether closed or open, in a vertical direction creates different levels of composition: 3 steps of 80-120-160 cm, and even greater. Elements can also be combined in a horizontal direction, meaning that no limits are placed on size or your creativity. The composition can also be completed with deeper floor-standing storage units (N.C. Basi, N.C. credenze, N.C. Ground Case) or wallmounted units (N.C. Slim Case), according to your aesthetic and functional needs.

## Finishings

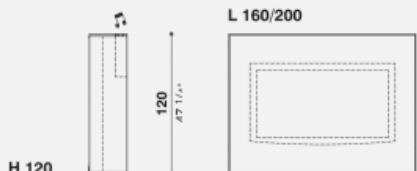

Storage units with matt slate grey structure; doors can be matt or glossy lacquered or veneer and the bookshelves can be matt lacquer or veneer. Ending sides matt lacquer, veneer, metal or lead mirror. Lacquer colors: Black, White SW, Ghiaia Grey, Pietra Grey, Fumo Grey, Lino, Sabbia, Warm Grey, Argilla. Veneer finishes: eucalyptus, black eucalyptus, black larch.
