Designer

1987 – 2021
Gianfranco Frattini

Emblematic of the rigorous designs of Gianfranco Frattini, the Gong side table reemerges with his quintessential grace and flair of form, now in diverse heights and diameters – a family of proportions for sculptures, plants, and other decor. In a muted brushed finish of brass or gunmetal, the metals present a new emphasis on materiality, with a column in the same colour or contrasting in brass, and a tabletop and base in iron, all in gleaming, elemental purity.

Dimensions

Ø 27 / 43 / 55
B 27
H 80 / 45 / 55 / 35

Finishes

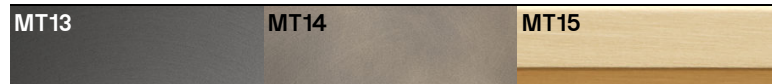

The side tables are entirely painted in gunmetal or an orbital bronze matt finish. The stand is in brushed brass for the two-coloured version and sharply contrasts with the two finishes.

Orbital bronze: hand-brushed handcrafted finish to create the “scratched” effect.
