Anilina Information

Anilina leather is intended for true connoisseurs, to those who can fully grasp the charm of genuine leather. Dyed in barrel without any kind of finishing, it is the closest to the concept of leather as nature has created it. The not forced drying, simply in the air, as it was done once, further embellishes its softness. All the natural characteristics, such as wrinkles, chiaroscuro effects and imperfections enhance its genuine beauty, making each

a unique piece.

The inner side of the shell is covered with leather. The outer side of the shell is covered with micro-perforated leather.

The shell of Flow collection covered with Anilina leather is fully covered with leather, micro-perforated on the outer side. The seams are always in contrast colour.

typology Leather

composition European bovine

Mineral tanning Printed arain Penetrating dyeing finishing Pure aniline surface Full grain 1,1/1,3 mm thickness average size ≥ 5 mq

dry friction ≥ 100 cycles damp friction ≥ 25 cycles ≥ 10.000 cycles flexing

light fastness ≥ 3 blue scale, dark colours

heat ageing ≥ 3 grav scale

fire resistance ISO 1021:1-2, BS 5852 source 0-1, IMO FTP8 A652, California TB 117-2013 washing information

Avoid cleaning with aggressive products. Keep away from direct sunlight and from direct heat. Avoid contact between light and dark colours even be. Regularly dust with a soft and dry cloth.

Rich in nuance like a Nordic landscape and suitable for any furnishing style. Keiga is a foundational fabric that works with everything, vintage or modern, angular or organic, art deco or light toned Scandi. Matt wool grounds the rich structure, enlivened by the contrast from the shiny yarns. Colours drawn from Norwegian nature include pine tree, silver grey, pink blush, charcoal, russet, bear brown, black and a signature glacier

Nabuk Information

Leather is natural and its particular nature is underscored by wrinkles and scars that characterise the quality and origin. Leathers from the best breeders are carefully selected and only a small percentage are considered for purchase. The natural characteristics of leather do not allow us to guarantee the perfect correspondence between sample colours and the colours of available leathers.

Noah is made out of 100% recycled polyester. It doesn't use any new raw materials and doesn't generate any waste. Subtly textured warp and weft yarns merge into a pleasantly soft weave with a minimalist quality. Noah's timeless design is simple to take care of and comes in a carefully selected colour palette of Mediterranean hues. Some details are important. Noah is made where we live and, like any other hometown, it's a place we want to keep flourishing. That's why we weave with recycled materials, certify our fabrics under OEKOTEX and work from a zero-waste, ISO 14001 accredited facility. Noah is PFCfree too.

Nuvola Information

The excellent quality of nuvola® leather comes from a careful selection of European cattle, nuvola® has a smooth and soft grain. The hides are dyed with a passing-through process, in the same dye as the finish. The colour card includes an extraordinary series of colours, obtained from a single quality of leather. The wide range of fashionable colours characterises nuvola® leather for its excellent range of use, tied to the most demanding design-proposals.

Inner side of the shell covered with micro-perforated leather. Outer side of the shell covered with leather.

The shell of the Flow collection covered with Nuvola leather is fully covered with leather, micro-perforated in the inner side. The seams are always in the same color.

### **Portofino**

Portofino is linen used mainly for upholstery and upholstery, offered in 16 different variants.

Thanks to the pumice stone treatment the surface of the fabric presents light veiled effect. Ideal for vintage upholstery. Furthermore, the stain-resistant treatment makes the Portofino ideal for the creation of finished products that must last over time while maintaining their characteristics unchanged.

### Legenda

Hand wash. Delicate wash. Maximum temperature: 30°/40°. Use neutral soap without optical whiteners.

Dry clean only. Do not wash in water. Treat with care when damp.

Machine wash up to 40°.

Dry cleaning with perchlorethylene, chlorinated solvents and mineral essences (perchlorethylene solvents, hydrocarbons, R113 and R11). The garment is washable with normal procedures but without the use of trichlorethylene (or trichlorethylene).

Dry clean with tetrachloroethylene, monofluorotrichloromethane, trifluorochloroethane, hydrocarbons. Severely limit the amount of water added and/or the mechanical action and washing and drying temperatures. Do not dry clean at automatic coin-operated laundry facilities.

Do not dry clean.

Dry clean with hydrocarbons and trifluoro-trichloroethane.

Do not tumble dry.

Warm iron (max 110° C)

Warm iron (max 150° C)

Iron on the reverse side.

Do not use chlorine bleach.

Tumble dry.

Do not iron.

Wet-cleaning.
