Anilina

Information

Anilina leather is intended for true connoisseurs, to those who can fully grasp the charm of genuine leather. Dyed in barrel without any kind of finishing, it is the closest to the concept of leather as nature has created it. The not forced drying, simply in the air, as it was done once, further embellishes its softness. All the natural characteristics, such as wrinkles, chiaroscuro effects and imperfections enhance its genuine beauty, making each hide
a unique piece.

The inner side of the shell is covered with leather. The outer side of the shell is covered with micro-perforated leather.

The shell of Flow collection covered with Anilina leather is fully covered with leather, micro-perforated on the outer side.
The seams are always in contrast colour.

typology	**Leather**
composition	**Hides of European bovines**
tanning	**Mineral**
grain	**Printed**
dyeing	**Penetrating**
finishing	**Pure aniline**
surface	**Full grain**
thickness	**1,1/1,3 mm**
average size	**≥ 5 mq**
dry friction	**≥ 100 cycles**
damp friction	**≥ 25 cycles**
flexing	**≥ 10.000 cycles**
light fastness	**≥ 3 blue scale, dark colours**
heat ageing	**≥ 3 gray scale**
fire resistance	**ISO 1021:1-2, BS 5852 SOURCE 0-1, IMO FTP8 A652, CALIFORNIA TB 117-2013**

washing information

ANILINA leather naturally shows differences in finish and color, visual irregularities, marks, shades and color unevenness, peculiarities of a natural material of the highest quality and synonymous of its value and uniqueness. Due to its extreme naturalness, it is also more delicate and sensitive than more treated leathers: the contact with liquids, with different materials and colors, as well as the direct exposure to the sunlight and heat sources could indelibly alter the color, while metal or sharp parts may affect the surface. For daily cleaning, simply dust with a soft, dry cloth. For a more thorough cleaning, it is expressly recommended to use specific products for leather, avoiding the use of water, soap and any aggressive detergents.

Legenda

- Hand wash. Delicate wash. Maximum temperature: 30°/40°. Use neutral soap without optical whiteners.
- Wash at a maximum temperature of 30°, using a gentle cycle. Pay attention to the maximum degrees indicated, they can range from 30° to 95 °.
- Wash at a maximum temperature of 60°, using a gentle cycle.
- Dry clean only. Do not wash in water. Treat with care when damp.
- Dry clean with tetrachloroethylene, monofluorotrichloromethane, trifluorochloroethane, hydrocarbons. Severely limit the amount of water added and/or the mechanical action and washing and drying temperatures. Do not dry clean at automatic coin-operated laundry facilities.
- Dry clean with perchlorethylene
- Do not dry clean.
- Dry cleaning with hydrocarbons and trifluoro-trichloroethane.
- Wet-cleaning.
- Do not tumble dry.
- Tumble dry.
- Dry at low temperatures.
- Do not centrifugate.
- Iron at low temperature without steam (max 110°C).
- Ironing at moderate temperature (max 150°C).
- Iron on reverse.
- Do not iron.
- Do not use chlorine bleach.

Information

Piece-dyed with a rich palette, ANIMA blends ultra-microfiber and matte chenille in a refined jacquard texture with a strong sense of identity. With a finishing treatment that adds a subtly faded look to the fabric's surface, there is a natural beauty to ANIMA that is elegant and captivating.

cold resistance	**-30°c**
column of water	**Approx 1.000 mm**

Use and maintenance

For correct washing, use a delicate neutral soap and water, and rinse thoroughly after washing, using only water. After cleaning, allow the fabric to dry correctly before folding it and putting it away, to avoid it getting mouldy.

Keiga

CAT.G

Information

Rich in nuance like a Nordic landscape and suitable for any furnishing style. Keiga is a foundational fabric that works with everything, vintage or modern, angular or organic, art deco or light toned Scandi. Matt wool grounds the rich structure, enlivened by the contrast from the shiny yarns. Colours drawn from Norwegian nature include pine tree, silver grey, pink blush, charcoal, russet, bear brown, black and a signature glacier blue.

Leather

Information

Top-grain leather, aniline dyed, natural grain, finished with light pigmented polymers, soft touch. Color proposals vary up to 17 color variations.

typology	**Hides of European bovines.**
composition	**Chemicals used for tanning, dying and finishing the leather do not contain substances which are hazardous for human health and the environment.**
height	**4.5/5 sqm**
thickness	**1.3/1.5 mm**
light fastness	**> 6**
fire resistance	**1IM, UNI 8456 (1987), UNI 9174 (1987), UNI 9174/A1 (1996), UNI 9177 (1987)**

washing information

The upholstery is in totally natural, prime quality full grain saddle-hide. It is very sensitive: be careful of liquids or other substances that could alter the colour of the leather, and also of metallic or sharp parts that could leave marks on the surface.
CLEANING AND MAINTENANCE
Only use specific leather cleaners. / Avoid direct exposure to sunlight and sources of heat. / Avoid contact between light and dark colours, and between different materials. / Dust with a soft dry cloth.

Nabuk

Information

Leather is natural and its particular nature is underscored by wrinkles and scars that characterise the quality and origin. Leathers from the best breeders are carefully selected and only a small percentage are considered for purchase. The natural characteristics of leather do not allow us to guarantee the perfect correspondence between sample colours and the colours of available leathers.

typology	**Leather**
composition	**Hides of European bovines.**
height	**> 5 MQ**
light fastness	**3**
thickness	**1,1/1,3 mm**
fire resistance	**UNI EN 1021-1/2, BS 5852-0/1, IMO MED FTP8 A652, CALIFORNIA TB 117-2013**
other information	Chemicals used lor tanning, dying and finishing the leather do noi contain substances which are hazardous lor human health and the environment.
washing information	Nabuck and suede should be brushed periodically and cleaned with a vacuum cleaner. Spilt liquids should be soaked up immediately with a clean light-coloured cloth. A brush with soft bristles will help to restore the normal appearance of suede leather. Avoid exposure lo direct sunlight. Avoid exposure lo direct heat sources. Do not use aggressive cleaning products. Avoid contact between light and dark colours and also between different types of materials. Dust regularly with a soft, dry cloth.

Noah

CAT.C

Information

Noah is made out of 100% recycled polyester. It doesn't use any new raw materials and doesn't generate any waste. Subtly textured warp and weft yarns merge into a pleasantly soft weave with a minimalist quality. Noah's timeless design is simple to take care of and comes in a carefully selected colour palette of Mediterranean hues. Some details are important. Noah is made where we live and, like any other hometown, it's a place we want to keep flourishing. That's why we weave with recycled materials, certify our fabrics under OEKOTEX and work from a zero-waste, ISO 14001 accredited facility. Noah is PFC-free too.

Nuvola

Information

The excellent quality of nuvola® leather comes from a careful selection of European cattle. nuvola® has a smooth and soft grain. The hides are dyed with a passing-through process, in the same dye as the finish. The colour card includes an extraordinary series of colours, obtained from a single quality of leather. The wide range of fashionable colours characterises nuvola® leather for its excellent range of use, tied to the most demanding design-proposals.

Inner side of the shell covered with micro-perforated leather. Outer side of the shell covered with leather.

The shell of the Flow collection covered with Nuvola leather is fully covered with leather, micro-perforated in the inner side. The seams are always in the same color.

Parigi

CAT.F

Information

Nature at its best. The grainy feel and organic look of the crepe fabric are the perfect “translation” of the tactile values of nature. In two or three colours, Parigi shows both subtle and intense hues, with a high volume structure, while the special woven binding lends it an air of sophistication.

Portofino

CAT.E

Information

Portofino is linen used mainly for upholstery and upholstery, offered in 16 different variants.
Thanks to the pumice stone treatment the surface of the fabric presents light veiled effect. Ideal for vintage upholstery. Furthermore, the stain-resistant treatment makes the Portofino ideal for the creation of finished products that must last over time while maintaining their characteristics unchanged.

Ramiro

CAT.E

Information

Fabric made entirely of polypropylene yarn, Ten Stars Yarn, exclusive patented, dyed in mass with an air flow texturization able to give the fabric a look and a softness comparable to natural fibers.
It is used for the production of outdoor furniture and it is 100% recyclable and made in Italy.
Its composition guarantees permeability and breathability and make Ramiro fabric suitable for a prolonged use in outdoor environments without compromising its appearance, hand and color.

washing information	Ordinary dirt stains such as coffee, soft drinks, milk, beer, etc. can be removed by using a clean cloth or soft sponge and dabbing the stain with soapy water. Remove the soap solution by wiping the area with a cloth and clean water. Do not use chlorine, alcohol, or solvents. Warning: non-colourfast fabrics (such as jeans or similar items) can leave stubborn stains or spots on light coloured eco leather.

washing information

Legenda

- Hand wash. Delicate wash. Maximum temperature: 30°/40°. Use neutral soap without optical whiteners.
- Wash at a maximum temperature of 30°, using a gentle cycle. Pay attention to the maximum degrees indicated, they can range from 30° to 95 °.
- Wash at a maximum temperature of 60°, using a gentle cycle.
- Dry clean only. Do not wash in water. Treat with care when damp.
- Dry clean with tetrachloroethylene, monofluorotrichloromethane, trifluorochloroethane, hydrocarbons. Severely limit the amount of water added and/or the mechanical action and washing and drying temperatures. Do not dry clean at automatic coin-operated laundry facilities.
- Dry clean with perchlorethylene
- Do not dry clean.
- Dry cleaning with hydrocarbons and trifluoro-trichloroethane.
- Wet-cleaning.
- Do not tumble dry.
- Tumble dry.
- Dry at low temperatures.
- Do not centrifugate.
- Iron at low temperature without steam (max 110°C).
- Ironing at moderate temperature (max 150°C).
- Iron on reverse.
- Do not iron.
- Do not use chlorine bleach.
